1. Preparing for Departure

1.1 Recommended Apps to Download Before Arrival

⚠ For Android users, please download the necessary apps before departing for China, as the Google Play Store cannot be accessed without a VPN.

2.1.2 Top Up Balance in the Card

The balance that you top up on the card is used for paying for food in the canteen, as well as topping up water and electricity.

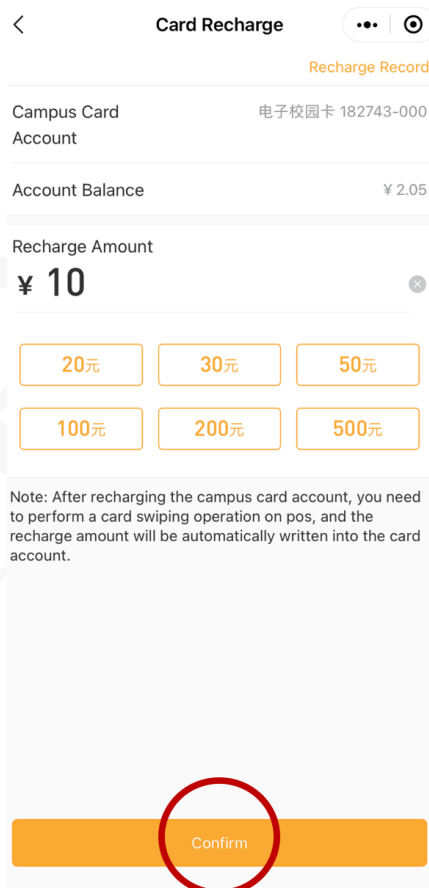

For students who only have cash and no access to WeChat Pay (normally, students using temporary student cards and those visiting China for the first time fall under this category): You can top up your balance at the University Town Campus Service Center located inside Ping An Bank using cash.

- After linking your temporary or official student card with the mini program, choose “Card uplift” under the “Card Management” category.

4.1 Campus eBikes

Within campus, there are two main rental methods of transportation: **eBikes and Bicycles**. eBikes cannot be ridden off campus, but bicycles can. Both must be returned to their designated locations, which are shown within the APP or by lines marked on the road to avoid fines. It is important to remember to lock the eBike/bicycle once you have finished using it, as these may also incur charges and penalties. eBikes offer discount packages that you can purchase on a weekly/monthly basis. There are two eBike systems offered here:

You may also use the Hello eBike by using Alipay to scan the QR code on the eBike.

4.1.2 Meituan eBike 美团

In order to utilize a Meituan e-bike, you must first register your account with your passport. Screenshots on how to do this are shown below. After registering your passport information, it may take a few days for verification before you are able to scan and use these bikes. Similar to Hello eBike, you can scan and pay 1.80 RMB per 10-minute usage or purchase a plan offered by the company.

🦊 A nightclub filled with futuristic visuals and hip-hop vibes.

🎵 Music: Mainly hip-hop, with some Western pop songs, and occasionally Chinese songs.

💰 Price: FREE

☀️ Comments:

- There are eye-catching 90-degree lasers everywhere and a large 3D screen displaying cool visuals that will give you a very futuristic cyberpunk feeling.
- Get your US hip-hop knowledge updated because that's mainly what you will hear there.
- Can get very crowded after 1 or 2 am.
- We do not recommend arriving before midnight if you want to experience the best vibe.

6.7.2 Oil Club

 A techno club where you will meet a lot of internationals, dancing to the music of DJs from all around the world (a lot of Europeans)

 Music: Techno ONLY. There are no lyrics, just the beat.

 Price:

- 100 RMB for one entry
- Group discounts are possible (-10% if a group of 10 people, for example)

 Comments:

- By experience so far, it doesn't get crowded to the point that people step on each other, which is comfortable compared to a lot of nightclubs in Shenzhen.
- If you are not into techno music, you will probably not enjoy the night there. However, if you are into it, you will love moving on the beat for hours!
- It is worth checking which DJ is playing the night you want to visit the club, as they vary greatly and your favorite techno DJ may be invited some day!
